

# Technoleap

The Technoleap team can provide the solution you are looking for to safely transport and store your equipment. Technoleap specializes in anodized aluminum ATA 300, MIL-SPEC, and HAZ-MAT cases, as well as blow / injection molded watertight or light duty plastic cases. Technoleap can provide custom fabrication and custom interiors, as well as applied graphics and other functional features to make your cases right for you.

Technoleap supplies cases to the Air Force, Navy, Army, and Coast Guard, as well as through joint ventures with approved Defense Contractors. We also manufacture cases for various Government agencies, many local, state, and Federal law enforcement agencies and Security Contractors.

Our **TechnoCases** support applications for military, airlines, educational facilities, manufacturers of electronics, oil and gas wireline services, promotional display companies, entertainers, transporters of hazardous materials, and many more.

Contact us for a quote on your specific application.
